Figure 3 Correlalogram for items on each factor for two groups of teachers

(a) Items on emotional exhaustion, elementary school teacher

sample sizes: *n* = 580
correlation: Pearson

X = non-significant at *p* < 0.05 (Adjustment: Holm)

(a) Items on emotional exhaustion, elementary school teacher

sample sizes: *n* = 580
correlation: Pearson

X = non-significant at *p* < 0.05 (Adjustment: Holm)

(a) Items on emotional exhaustion, elementary school teacher
